

Landscape Architecture Intern

(Summer 2022)

Lynchburg Landscapes LLC

Lynchburglandscapes.com

Lynchburg Landscapes LLC is fast growing design build firm looking for a full-time paid summer intern. We are a full- service provider of landscape design and construction services in the Lynchburg and Smith Mountain Lake regions. We are driven by our commitment to create beautiful, enjoyable and highly functional outdoor spaces. Our scope of work includes residential, commercial, park and urban design. Lynchburg

Landscapes was founded on the understanding that culture drives results and we are committed to developing strong relationships, emphasizing collaboration and nurturing forward-thinking ideas.

What You Will Do:

Our landscape architecture interns will need to love the outdoors and not be afraid to get dirty. You will be learning the business from the ground up. Your time will be an approximate 80/20 split between installation and design. The hands-on experience will have you working directly with certified landscape architects and construction project managers. Field experience and knowledge of estimating are essential skills that will enhance your designs and provide marketable experience.

Installation (80%)

- Site Demo
- Soil Prep
- Plant installation
- Sod
- Hardscape installation – paths, patios, walls, firepits, etc
- Lighting
- Site cleanup

Design (20%)

- Client meetings
- Site inventory and analysis
- Design Development
- Drafting with Dynascape (and possibly VizTerra)
- Job Estimating

If you are interested in applying please reach out to Jennifer Logan (BLA – Virginia Tech, 1995)
