GW

LOCK DOWN YOUR CAREER OPPORTUNITIES
in Cybersecurity

The Cybersecurity Programs

From foreign ransomware attacks to the 2016 Presidential election interference, no target has proven too big for cyberspace's bad actors. As thousands of would-be criminals, terrorists, and spies are using their knowledge to exploit vulnerabilities worldwide, those who wear the white hat **need to stay a step ahead** in safeguarding society.

Expand your potential and enhance your marketability in one of the world's most in-demand fields.

Whether you're a recent grad, mid-career, or changing careers altogether, when you earn a degree from GW, you earn the respect and recognition that our standing **National Center of Academic Excellence for Cyber Research** (CAE-R) conveys.

College of Professional Studies

THE GEORGE WASHINGTON UNIVERSITY

CPS has made it our mission to bring together experts, leaders, and partners with proven backgrounds in a wide array of topics, fields, and experiences. They mentor, teach, and collaborate with students in our **20+ programs to translate impact from the career level to the global stage.**

Because crossing disciplines crosses lines. Tears down silos. And shocks the systems that keep things just how they've always been. Our graduates have mastered skills inside and outside their fields that allow them to tackle society's stubborn challenges from all angles.

Our Cybersecurity programs are comprehensive and nationally recognized.

You'll delve into topics that have the greatest impact on the industry today, including:

- **Attacker Tools & Techniques**
- **Cloud Security**
- **Cyber Conflict**
- **Cyber Investigation**
- **Digital Forensics**
- **Ethics, Law & Policy**
- **Intrusion Detection & Vulnerability Management**
- **IT Security Defense Countermeasures**

To learn more about our Cybersecurity programs and take the next step in your career journey, scan the QR code or visit cps.gwu.edu/cybersecurity.

There's a difference between a career and your life's work.

The College of Professional Studies prepares our students to shape their fields and the communities they live in.

Learn from the best: Our faculty have shaped business, national defense, security policy and more – locally, regionally, and globally.

Connect with opportunities: Get access to one of the most extensive, influential networks of alumni, influencers, and career-connectors in the country.

Hone your point of view: Work alongside leaders, partners, and fellow students who bring a variety of new ideas and perspectives to the classroom.
