Jesus in America: Personal Savior or Cultural Hero?

"The United States is unique among modern industrial countries in its devotion to Jesus as personal savior and cultural hero. Two-thirds of Americans claim that Jesus is divine as well as a man who walked the earth in ancient Palestine. The "new birth" Jesus preached has matched up nicely with the traditional secular American belief in new identities for individuals and new beginnings for the nation."

That's the topic for the last Phi Theta Kappa seminar this year, on Saturday, April 29. Read more about Jesus and church-state issues - past and present - in America.
