ABOUT US

Welcome to the Student Technology Training Center!

Our goal at the TTC is to provide hardware/software support to students on a variety of computing skills.

Our focus is on the various workshops we offer, the individualized assistance we provide, and the facilities and software we have available. We also provide assistance with class registration and enrollment.

We pride ourselves on our ability to provide a facility staffed by people who provide the best experience possible to students.

Our workshops are prescheduled, but can be requested for classes or individually on our website.

Note: We prefer faculty to bring classes to the TTC for group training. Accommodations can be made based on the need.

Friday: 8:30 a.m. - 5:00 p.m.
Saturday: 8:30 a.m. - 2:00 p.m.
Sunday: Closed
College holidays: Closed

*Hours subject to change
The TTC contains Microsoft Windows 10 and iMac computers for working on out-of-class assignments and projects. We also have Windows 10 laptops for on-campus use (Limit 3 hour checkout).

**Linux operating system and virtual machines available upon request.**

The TTC also contains scanners and high-speed network printers (color or black and white) for academic use.

The TCC has computers with assistive technology. We also have stations reserved for people with disabilities.

We provide student with headphones for use in the TTC only. Student IDs are needed for laptops, as well as headphones, and will only be returned when the student returns the equipment.

**SOFTWARE**

The TTC computers have over 90 applications installed for student utilization. A list of the software installed can be found on our website or at goo.gl/H7F5EW.

Requests can be made for the TTC to install software not included on our list. If the course is held at the Woodbridge campus the software must be requested by the instructor. If the student is taking the course at another campus, the student is able to make the request themselves.
