

**NEW PROGRAM!**

# EPA Section 608 Technician Certification

(Learn@Home & On Campus)

**NOVA** | Northern Virginia  
Community College

## HVAC technology is becoming an increasingly popular profession with many in-demand jobs waiting to be filled.

The new NOVA Workforce EPA Section 608 Technician Certification provides essential knowledge for developing skills fundamental to working with residential and commercial systems. You will learn the basics of air conditioning, refrigeration, and heating systems, including tools, fasteners, tubing, copper, soldering/brazing, thermodynamic principles, the relationship of temperature and pressure, system components, refrigerants, service procedures (recovery/recycling, evacuation, leak detection, charging), metering devices, basic troubleshooting, controls, and compressors. After completing the course, students will have the opportunity to test and obtain the EPA Section 608 Technician Certification.

### In-person sessions

NOVA Woodbridge Regional Center (WRC)  
Saturdays: 3/27/2021, 4/17/2021, 5/8/2021
